

PRO SAVER INFLATABLE LIFERAFT

GUARANTEED SAFETY - THE LIFERAFT OFFERING VALUE FOR MONEY

Common sense and sound judgement are the hallmarks of a good skipper. He therefore constantly reviews on-board safety equipment. Let us show you that, in this area, with the PRO SAVER inflatable liferaft, safety need not be compromised by cost considerations.

PRO SAVER INFLATABLE LIFE-RAFT
for 4, 6 or 8 people

SAFETY AT AN AFFORDABLE PRICE

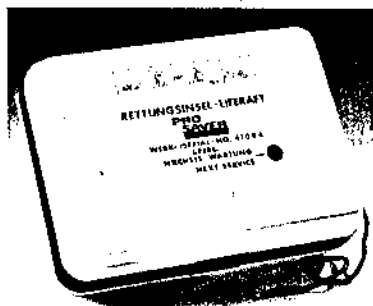

You can be quite certain about this! The PRO SAVER inflatable liferaft offers a sound combination of price and quality. High-quality material is used together with modern manufacturing techniques to make a safe product.

Each PRO SAVER inflatable liferaft is made of extremely light yet tearproof material. Two inflation tubes in independent chambers, and a self-erecting canopy are the distinguishing features of the design of this inflatable liferaft. Water ballist pockets, a boarding aid, a safety rope around the edge, a locking entrance, an additional lookout and reflective strips are, of course, standard.

The PROSAVER is available with either a basic RORC 'E' or solas 'B' safety pack.

CONTAINER OR POUCH

It's up to you whether the PRO SAVER inflatable liferaft is to be carried in a container on deck or attached to a stern holder, or whether it should be stowed ready-to-hand in a valise in the forecabin container. We will supply the inflatable life-raft as you want.

TECHNICAL DATA

	Weight	Length x width x height (mm)
4-people PRO SAVER, container	approx. 20 kg	650 x 480 x 230
Valise	approx. 18 kg	660 x 360 x 310
6-people PRO SAVER, container	approx. 24 kg	650 x 480 x 310
Valise	approx. 22 kg	700 x 360 x 320
8-people PRO SAVER, container	approx. 28 kg	765 x 515 x 290
Valise	approx. 25 kg	780 x 400 x 350

SERVICE

Routine maintenance work on the PRO SAVER inflatable liferaft should always be left to experts, and for this AUTOFLUG offers you its worldwide network of AUTOFLUG service stations. They are familiar with the PRO SAVER inflatable liferaft and have all the maintenance material in stock.

Inflatable Life Raft

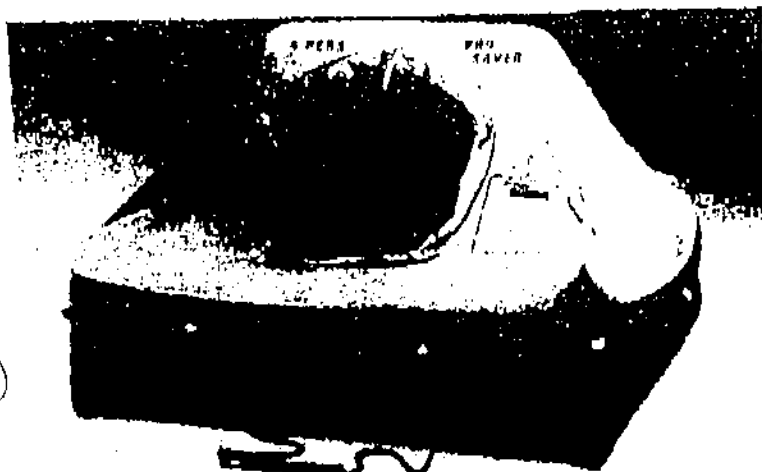

PRO SAVER

The PRO SAVER inflatable life raft provides basic safety for a 4, 6 or 8 man crew.

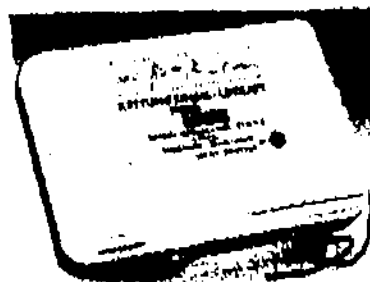

It is a must on board, as container or valise. The high-standard fabrication, excellent material and its extreme tear resistance are elements which you can trust in the case of an emergency. Two buoyancy tubes with independent chambers and a self-erecting roof are, of course, included, as are capsizing protection bags, access aid and handline. With its wide range of equipment, the PRO SAVER is an inexpensive safety factor in waters near to the coast.

The PRO SAVER should be regularly serviced to ensure your safety. Make use of our world-wide service from authorised specialist companies.

- Inexpensive self-inflating life raft
- in valise or container
- 2 buoyancy tubes with independent chambers
- capsizing protection bags, access aid, all-around handline, closable entrance, additional lookout
- reflective strips
- sea anchor, paddle, quilt with line, bailer, sponge, pump, repair set

RE: Sydney/Hobart

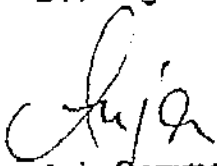

Dear Mark

1. I can confirm that the life raft which was used have been manufactured prior to the change. It was one of the discontinued line.

2. Please find enclosed a statement from our managing director.

3. The Pro Saver brochure which you sent to me is an old one. Please find enclosed the current one which describes the life raft as self-inflating with a self-erecting roof.

Best regards

Anja Sommer

Dear Mark

Thank you very much for your fax concerning the Sydney/Hobart race.

To let you know our comments we are looking for the detailed information that we will hopefully get, when the test report will follow.

Meanwhile we want to stress, that the demand for SOLAS life rafts will not solve the problem, from our point of view. Our life rafts are designed in size per person, tube volume per person, size of anti-capsizing water pockets to SOLAS standard. But we think, that also SOLAS life rafts will capsize in such a rough sea.

Please apologise the short answer due to the fact that we are on the way to the boat show in Düsseldorf. You can reach us from 15.01.99 to 24.01.99 under the fax No. 0049-211-9471758.

Best regards

Anja Sommer
